SUMMARY

Full-Stack Developer with 5 years extensive experience in the Microsoft .NET ecosystem and modern front-end frameworks. Proficient in designing, developing, and deploying robust, scalable, and high-performance web applications using **ASP.NET Core**, **.NET 8/9**, and **Angular**. Adept at leveraging **Entity Framework Core** and **MSSQL** for efficient data management and persistent storage. Seeking to apply my technical expertise and collaborative skills to build innovative software solutions.

PROFESSIONAL EXPERIENCE

Full-Stack Developer

CodeDesign-IT, Nino Pesce 38, Taggia, Italy | 2024 - Present

- Developed and maintained enterprise-level web applications using **ASP.NET Core** and **Angular** to deliver high-performance and scalable solutions.
- Implemented a robust data access layer with **Entity Framework Core**, optimizing queries for efficient interaction with **MSSQL** databases.
- Designed and built RESTful APIs using **.NET 8** to facilitate seamless communication between the front-end and back-end services.
- Upgraded legacy applications from **.NET Framework 4.8.1** to **.NET 8**, improving performance and leveraging modern features.

Software Developer/Technical Consultant

Finteq Solutions Inc, Cubao, Quezon, Metro Manila Philippines | 2023 – 2024

- Collaborated with cross-functional teams to define project requirements, troubleshoot complex issues, and deploy new features in an Agile environment.
- Develop and install application extension for Microsoft Dynamics 365 Business Central.
- Manage Environments and access Microsoft Entra with Dynamics 365 Business Central Administrator roles
- Develop internal employee management system using power apps.
